

OBD CAN Equipped Vehicles
 Revised 5/9/2008

Please input any vehicles that will be using CAN (ISO 15765-4) for generic OBDII communication
 Drop-down menus are on SHAPE, TRANS, FUEL TYPE, and CAN TYPE columns allowing you to select the proper entry
 For the last column, please indicate whether the vehicle uses 11-bit header or 29-bit header for CAN
 Please use a separate line for each variant (e.g., different shape within the same make/model/engine size)
 Footnotes are listed at the bottom of the page

MDYR	MFRN	DIV	PNAME	SHAPE ^(a)	NCYL ^(b)	DISPLR	TRANS ^(c)	FUELTYPE ^(d)	CAN TYPE ^(e)
